CADENCE ANDERSON

Charlotte, NC • cadence.anderson88@gmail.com • 704-315-9360 • github.com/CadenceElaina • cadence-anderson.netlify.app

EDUCATION

University of North Carolina at Charlotte — Charlotte, NC *Expected: Fall 2027*
Bachelor of Science in Computer Science | Concentration: Data Science *GPA: 3.66*
Relevant Coursework: Data Structures & Algorithms, Discrete Mathematics, Calculus II

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Python, SQL
Frameworks / Libraries: React, Vite, Node.js, Express.js, Spring Boot, Jest, Supertest
Databases / Tools: MongoDB, PostgreSQL, Git, GitHub, Postman, REST APIs, Linux/Unix

PROJECTS

Finch • *React, TypeScript, Vite, Node.js, Gemini AI*
Live ↗ | GitHub ↗ | Demo Video ↗

- Built a Google Finance-inspired market intelligence dashboard with live stock data, watchlists, and portfolio tracking; 4-tier API fallback chain with circuit breakers and request deduplication
- Integrated Gemini AI for contextual market summaries, multi-turn research chat, and portfolio commentary with a credit system and daily caching
- Deployed to Vercel with CI/CD via GitHub Actions (160+ commits); seamless demo mode auto-activates on rate limits

Journal • *React, Node.js, Express, MongoDB, JWT, Jest*
Live ↗ | GitHub ↗ | Demo Video ↗

- Architected production-grade authentication with JWT access/refresh token rotation, cross-tab synchronization (Web Locks API → BroadcastChannel fallback), and TOTP-based two-factor authentication with hashed backup codes
- Implemented account security features including rate limiting on all auth endpoints, bcrypt password hashing, Helmet.js security headers, input sanitization, and account lockout after repeated failures
- Built comprehensive integration test suite using Jest, Supertest, and in-memory MongoDB; full-text search with MongoDB text indexes and TTL-based automatic document expiration

NeetcodeSRS • *React, TypeScript, Open Source*
Live ↗ | GitHub ↗

- Built and open-sourced a spaced repetition system for LeetCode interview prep around the NeetCode 150, using a modified FSRS algorithm to schedule reviews based on retention probability
- Shipped features including attempt logging, mock interview mode, pattern drills, NeetCode import, and an interview readiness score with tier ranking; actively maintained with community users and feedback via Discord

EXPERIENCE

Wells Fargo Advisors • Financial Advisor • Charlotte, NC *January 2024 – February 2026*

- Spearheaded a lead-generation process improvement by identifying redundant UI data-entry steps; collaborated with Business Systems Analysts to design "Quick Lead" templates that pre-filled client data, eliminating ~5–6 clicks per lead for 200+ advisors nationally
- Drove cross-functional collaboration between senior leadership and technology partners over 18 months to move the initiative from proposal to full implementation, serving as primary business-side point of contact
- Authored monthly asset reports translating raw datasets into actionable strategy insights using Excel, directly influencing senior leadership's regional wealth management decisions

Wells Fargo Advisors • Investment Consultant • Charlotte, NC *August 2022 – January 2024*

- Onboarded clients into brokerage, IRA, and advisory accounts; coordinated rollovers and asset transfers to completion
- Educated clients on mutual fund, fixed income, and managed portfolio products, translating platform features into actionable guidance
- Conducted outbound follow-up campaigns to accelerate application completion and resolve documentation gaps
