## EDUCATION

---

**University of North Carolina at Charlotte**

Expected: Spring 2028

Bachelor of Science in Computer Science

GPA: 3.66

Concentration: Networks & Systems | Minor: Mathematics

**Relevant Coursework:** Data Structures & Algorithms, Introduction to Computer Systems, Java OOP I & II (University of Helsinki), Full Stack Open (Parts 1-9)

## TECHNICAL SKILLS

---

**Languages:** JavaScript (ES6+), Java, Python, SQL

**Frameworks/Libs:** Spring Boot, React, Node.js, Express.js, Jest

**Databases/Tools:** MongoDB, PostgreSQL, Git, GitHub, Postman, Linux/Unix, REST APIs, VSCode, Copilot, Claude

## PROJECTS

---

**BlogList Application • React, Node.js, Express, MongoDB**

Live: [bloglist-17lz.onrender.com/](https://bloglist-17lz.onrender.com/) | GitHub: [github.com/CadenceElaina/bloglist](https://github.com/CadenceElaina/bloglist)

- Built full-stack blog platform with reusable React UI components for blog creation, editing, and display
- Developed user authentication and RESTful API architecture with Node.js/Express backend
- Implemented JWT-based authentication, authorization, and session management
- Built comprehensive test suite using Jest for backend API testing; deployed to production on Render

**Financial Statement Analyzer • React, Node.js, MongoDB**

GitHub: [github.com/CadenceElaina/vireofi](https://github.com/CadenceElaina/vireofi)

- Developed full-stack financial services application with React frontend and Node.js/Express API backend
- Built custom PDF parsing logic tailored for financial institution statement formats
- Architected MongoDB data model for transaction storage and categorization
- Designed intuitive UX for importing, categorizing, and visualizing financial transaction data from CSV and PDF uploads

## EXPERIENCE

---

**WELLS FARGO ADVISORS • Financial Advisor • Charlotte, NC**

January 2024 - February 2026

- Spearheaded a lead-generation process improvement by identifying redundant UI data-entry steps; collaborated with Business Systems Analysts to design "Quick Lead" templates that pre-fill client data, eliminating ~5–6 clicks per lead for 200+ advisors across the national team
- Drove cross-functional collaboration between senior leadership and technology partners over 18 months to move the initiative from proposal to implementation, serving as the primary business-side point of contact
- Authored monthly asset reports by translating raw datasets into actionable strategy insights using Excel, directly influencing senior leadership's regional wealth management goals
- Translated complex financial vehicles and risk-tolerance concepts into digestible education for a diverse client base
- Managed client relationships encompassing account opening, portfolio reviews, trade execution, and product recommendations across mutual funds and fixed income

**WELLS FARGO ADVISORS • Investment Consultant • Charlotte, NC**

August 2022 - January 2024

- Onboarded clients into brokerage, IRA, and advisory accounts; coordinated rollovers and asset transfers to completion
- Educated clients on mutual fund, fixed income, and managed portfolio products, translating platform features into actionable guidance
- Conducted outbound follow-up campaigns to accelerate account application completion and resolve documentation gaps
