CADENCE ANDERSON

Charlotte, NC • cadence.anderson88@gmail.com • 704-315-9360 • github.com/CadenceElaina • cadence-anderson.netlify.app

EDUCATION

University of North Carolina at Charlotte — Charlotte, NC *Expected: Fall 2027*
Bachelor of Science in Computer Science | Concentration: Data Science *GPA: 3.66*
Relevant Coursework: Data Structures & Algorithms, Discrete Mathematics, Calculus II

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Python, SQL
Frameworks / Libraries: React, Vite, Spring Boot, Node.js, Express.js, Jest
Databases / Tools: MongoDB, PostgreSQL, Git, GitHub, Postman, REST APIs, Linux/Unix

PROJECTS

Finch • *React, TypeScript, Vite, Node.js, Gemini AI*
Live ↗ | GitHub ↗

- Built a Google Finance-inspired market intelligence dashboard with live stock data, watchlists, and portfolio tracking
- Integrated Google Gemini AI to generate contextual market summaries and answer user queries about holdings
- Architected React/TypeScript frontend with Vite; deployed to Vercel with CI/CD via GitHub Actions (160+ commits)

BlogList Application • *React, Node.js, Express, MongoDB*
Live ↗ | GitHub ↗

- Built full-stack blog platform with reusable React UI components for blog creation, editing, and display
- Developed RESTful API with Node.js/Express backend including JWT-based authentication and session management
- Implemented comprehensive Jest test suite for backend API testing; deployed to production on Render

Financial Statement Analyzer • *React, Node.js, Express, MongoDB*
GitHub ↗

- Developed full-stack financial application with React frontend and Node.js/Express API backend
- Built custom PDF and CSV parsing logic tailored for financial institution statement formats
- Designed intuitive UX for importing, categorizing, and visualizing financial transaction data

EXPERIENCE

Wells Fargo Advisors • Financial Advisor • Charlotte, NC *January 2024 – February 2026*

- Spearheaded a lead-generation process improvement by identifying redundant UI data-entry steps; collaborated with Business Systems Analysts to design "Quick Lead" templates that pre-fill client data, eliminating ~5–6 clicks per lead for 200+ advisors nationally
- Drove cross-functional collaboration between senior leadership and technology partners over 18 months to move the initiative from proposal to full implementation, serving as primary business-side point of contact
- Authored monthly asset reports translating raw datasets into actionable strategy insights using Excel, directly influencing senior leadership's regional wealth management decisions
- Managed client relationships encompassing account opening, portfolio reviews, trade execution, and product recommendations across mutual funds, fixed income, and various investment vehicles

Wells Fargo Advisors • Investment Consultant • Charlotte, NC *August 2022 – January 2024*

- Onboarded clients into brokerage, IRA, and advisory accounts; coordinated rollovers and asset transfers to completion
- Educated clients on mutual fund, fixed income, and managed portfolio products, translating platform features into actionable guidance
- Conducted outbound follow-up campaigns to accelerate account application completion and resolve documentation gaps
